RE: PLAN OF OPERATION, DATED JUNE 21, 1991

Dear Mr. Miller:

Reference is made to my Plan of Operation, dated and submitted June 21, 1991 (the "Plan of Operation"), pertaining to annual assessment work requirements on my mining claims located on North Temple Mountain in the recently established Temple Mountain ACEC.

We have taken another look at the Surface Management of Public Lands (43 CFR 3809), and are of the opinion that the Plan of Operation for my work program was not required under the "Casual Use" provisions of same. If you concur, please consider this letter as my rescission of the Plan of Operation. In the event you do not concur, I have enclosed herewith the amendment to the plan Mr. Simmons requested in his June 21, 1991 telephone with our operator. I will, however, pursue a second opinion on the "Casual Use" issue with the Utah State Director as well as my rights to deferment in the event I am hamstrung from completing my assessment work in a timely manner due to some administrative technicality at the local level while implementing the new RMP.

I would appreciate your written response to the above for my records, and thank you for your every assistance.

Sincerely,

MIGLIACCIO URANIUM PROPERTIES
